

En-Safe has been providing professional training and consulting services for Industrial, Commercial, Institution and Construction sectors since 1992. En-Safe is a privately owned company conducting business in YOUR community and has trained over 3,000 companies.

Consider the following:

- ◆ Courses are designed and approved by a Professional Engineer to meet or exceed legislative and industry standards and best practices. Also courses meet the American National Standard Criteria for Accepted Practices in Safety, Health and Environmental Training (ANSI® Z490.1-2001) or they are in the process of being retooled to meet this standard.
- ◆ En-Safe's specialization is on-site training.
- ◆ Training can be customized to include specific operations or procedures which have been set up by your organization.
- ◆ To meet legislative requirements, employers may be required to provide additional job specific training.
- ◆ To supplement selected training programs, templates and merchandise to implement an effective program element are available through www.safetyabc.com.
- ◆ Offers a 100% money back guarantee.

Working at Heights Awareness Training

As of June 12, 2002, Ontario Regulation 213/91 (Construction Regulation) Section 26.2 requires that, "an employer shall ensure that a worker who may use a fall protection system is adequately trained in its use and given adequate oral and written instructions by a competent person".

Fall Prevention and Protection Awareness

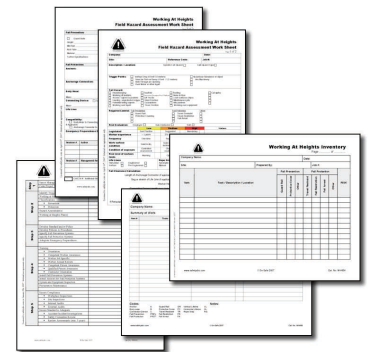

- 8 hour
- 16 hour
- Since there is currently not an equivalent Canadian Standard, courses are targeted to meet both **Authorized Person** and **Competent Person** Awareness training under the new ANSI Z359.2-2007 Standard for "Minimum Requirements for a Comprehensive Managed Fall Protection Program".

Recommend Working at Heights ROTs have a 2 year expiry as per the ANSI Standard

Also Available

- 4 hour - **Working at Heights Awareness Information Seminar** Targeted to workers exposed to Fall Hazards to help them understand the hazards and potential dangers. **Please Note:** Instruction on Fall Protection not included (e.g. Anchors, Bodywear (Harness) and Connecting Devices).
- 8 hour - **Working at Heights Program Management** Targeted to Safety Coordinators, Consultants, Supervisors, Safety Committee and Small Business Owners. Tools to customize a Working at Heights Program Element are included as per the ANSI Z359.2-2007 Standard for "Minimum Requirements for a Comprehensive Managed Fall Protection Program".

Best Practice Products

ABC Guide to Best Practice Products

Product includes information, electronic forms and merchandise to allow any company to quickly create an effective safety program element to enhance Due Diligence.

For information on courses offered by En-Safe, please visit our website at www.en-safe.com or give us a call (905) 478-1326.

- ◆ To receive an En-Safe issued ROT wallet card and certificate, stating the participant's successful completion of the training session, the participant must have attended and successfully completed both the theoretical and practical portions (if applicable) of the training session. Typically, an 80% on the theoretical evaluation is required.
- ◆ The participant's name appearing on the ROT wallet cards and certificates is transcribed by En-Safe from the Record of Attendance (ROA) sheet which is completed by the participant(s) during the training session. Each participant receives an individual registration number which is entered into En-Safe's training database and is available upon request by the employer or an inspector. En-Safe retains the original ROA, written theoretical and participant practicals or training sheets signed by each participant for a minimum of 10 years. A copy of the ROA, for on-site classes, will be forwarded to your company for their official records. Please note that the certificates or ROT wallet cards signify that the participant(s) has/have attended the training session. The certificates or ROT wallet cards do not represent a license or permit. A representative of the employer must sign the ROT wallet cards and the certificates. These ROT wallet cards have an expiry date and should be signed using permanent ink to ensure that signatures do not rub off over time.
- ◆ Please be advised that En-Safe's training is conducted in English. To be successful to En-Safe's standards, participants must comprehend the English language (both oral and written). Should interpreters be required, they are to be approved by En-Safe prior to the delivery of the training session. Should any verbal testing be conducted, or interpreters required, participants will receive an En-Safe issued certificate stating that the participant "attended" the class.
- ◆ En-Safe, their Associates, Employees, and/or Subcontractors shall be indemnified, and will in no way, be held responsible for any accidents, incidents or occurrences related to any of our training courses, products or professional services.
- ◆ Please be advised that En-Safe's courses are Awareness Training Courses only and do not necessarily meet the requirements of "Competent Worker/Person" training. En-Safe's courses are generic in nature and do not cover all possible job and site applications. To meet legislative requirements the Employer and/or Supervisor may also be required to provide additional training and/or instruction. This could include, but is not limited to, Job Specific Training (JST), an annual review and/or refreshers. Topics could detail specific emergency procedures, instructions with relation to specific equipment, hazards and potential or actual dangers that their employee(s) may encounter.
- ◆ En-Safe reserves the right to cancel and/or reschedule any courses as well as to remove any participants from a course, while providing a full refund.
